Bankrupt Has Trouble.

In the case of Bingham, who was fined \$700, the man went into bank-ruptcy in 1911, and later it was learned that he had come into possession of \$700, which the referee ordered him to from over in settlement of his debts. Failing to do so he was cited to appear before Judge Marshall and show cause why he should not be held in contempt. The defendant represented that the col-lection of the \$700 was made by his wife, but the federal judge held that Mrs. Bingham acted as his agent, and did not relieve him of the charge of contempt. Bingbam was placed in custody of Sheriff T. A. Devine until he can raise the amount necessary to pay his fine. This will be within a few days, he contends.

On the motion of Attorney J. N. Kimball, Attorney W. W. Harcombe of Ogden was admitted to practice law in the federal courts.

The Modern Bakery Is One of the Wonders of This Amazing Age

WHILE the Wright Brothers have been conquering the air-while Edison and Marconi have been doing almost impossible things with electricity—while 20th century wonders are being created on every hand - a most amazing transformation has taken place in the baking industry.

Our Modern Bakery Is a Veritable House of Wonders

All the actual work is done by automatic machinery. These machines clean and aereate the flour - they weigh, mix and knead the ingredients - they provide fresh, pure air for the "rising" of the dough—they cut the dough into portions of eaxctly the right weight, then shape these portions into loaves. They then carry them on through automatic proofers, properly conditioning the dough, and then deliver them at the very mouth of the giant ovens. The heat of these ovens is automatically regulated. They are always heated to the same degree. Sanitary regulations are carried to the limit and cleanliness is practiced as a religion.

During all this process men only supervise. The machines do the work. The bread is scarcely touched. It's simply wonderful! Think of this little business story next time you buy a loaf of

MRS. LOTTIE COZIER IS TO BE HONORED

KANKAKEE III. Sept 11.—John Robertson, a patient at the state hospital for the insane, was found today unconscious and nearly starved in a forsaken room in the basement of the institution, where he has been hiding for forty days and forty nights. Robertson's body was crouched at the foot of a rusty water pipe, from which a drop of water fell every few minutes. This water, it is believed, is the only sustenance he has had since July 51, when he disappeared from one of the fields in which he was working.

The man was found by a party of working.

The man was found by a party of plumbers, who entered the basement to repair the water pipes.

Robertson was taken to a hospital and fed by artificial means. Superintendent Michael Kelly declared that physicians believed there was some chance of his recovery. Some of the best musical talent of the city will be heard tonight at Whitney hall, in the testimonial concert to Mrs. Lottle Cozler, who will leave shortly to make her home for several years in the Sandwich Islands.
